Erasmus + Capacity Building in VET

B4CVET – Biochar for Circular Economy in Vocational Education and Training

B4CVET

D4.2 Project Website
Project Number: 101241833
Project Acronym: B4CVET
Lead Beneficiary: AISC
Submission Date: June 2026

Responsible Partner: A&I Services & Consulting

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

Introduction

The B4CVET project website has been established as the central communication and dissemination platform of the project. The website provides public access to project information, consortium details, activities, results, news, and contact information. The website supports the dissemination strategy of the project and contributes to the visibility, transparency and sustainability of project outputs throughout the project lifetime and beyond.

Website Information

Item	Description
Website URL	https://b4cvet.eu
Status	Online and publicly accessible
Responsible Partner	AISC
Language	English
Launch Date	April 2026
Accessibility	Public access

Website Structure

Section	Purpose
Home	Project presentation
Partners	Consortium information
Activities	Work Packages and activities
Results	Deliverables and outputs
Press	News and dissemination
Contact	Contact information

the European Union

Screenshots:

1. Homepage

The homepage serves as the main entry point to the B4CVET project. It introduces the project's objectives, partnership, and overall mission of strengthening vocational education through biochar applications, Circular Carbon Economy principles, and green skills development. Visitors can easily access project information, activities, results, and dissemination materials

2. Activities

The activities section provides an overview of the project work packages and ongoing implementation activities. It informs stakeholders about project progress, cooperation among partners, capacity-building actions, training events, and planned outputs.

4. Press

The news section communicates project developments, meetings, training activities, dissemination actions, and important milestones. It ensures continuous engagement with stakeholders and provides transparency regarding project implementation.

5. Contact

The contact section enables stakeholders, educational institutions, businesses, and interested individuals to communicate directly with the project consortium. It supports networking, cooperation opportunities, and stakeholder engagement throughout the project duration.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

Conclusion

The B4CVET website is fully operational and publicly available. It serves as the main dissemination platform for the project and will be continuously updated with project activities, results, news and learning resources. The website will remain available beyond the project duration as part of the sustainability strategy.
